

The Smartest Way to Automate Your Lab

Simplicity Connect is a comprehensive cloud-based Laboratory Information System (LIS) designed to streamline laboratory operations and enhance workflow efficiency. Our solution addresses common operational challenges while providing a scalable platform for laboratory growth.

Common Laboratory Challenges & Solutions

Challenge 1: Multiple Systems for Different Operations

Pain Point:

Managing multiple systems for different laboratory operations creates inefficiency and increases error potential.

Solution:

Simplicity Connect provides a unified platform that handles:

- Molecular testing workflows
- Blood/Chemistry processes
- Research data management
- Advanced analytics
- Workflow automation

Challenge 2: Integration Complexities

Pain Point:

Traditional systems require lengthy integration periods and significant upfront costs.

Solution:

- Rapid integration capabilities (typically 2-3 weeks for third-party systems)
- "Bolt-on" functionality with existing LIS systems
- Flexible implementation options
- All-inclusive SaaS pricing model covering future integrations

Challenge 3: Support Response Times

Pain Point:

Extended wait times for technical support impact laboratory operations.

Solution:

- Average ticket response time of 2.5 minutes
- Prioritized ticket system for critical operations
- 24/7 support availability
- Dedicated support team

Strategic Advantage Through Innovation

Simplicity Connect™ transforms laboratory operations by delivering:

Operational Excellence

Streamline your research workflow with intelligent automation and real-time analytics. Our platform adapts to your processes, not the other way around.

Key Capabilities

- Customizable research workflows
- Automated data management
- Real-time analytics dashboard
- Inventory optimization

Enterprise-Grade Security

- Microsoft Azure Cloud infrastructure
- Advanced security protocols
- Comprehensive audit trails

Transparent Pricing

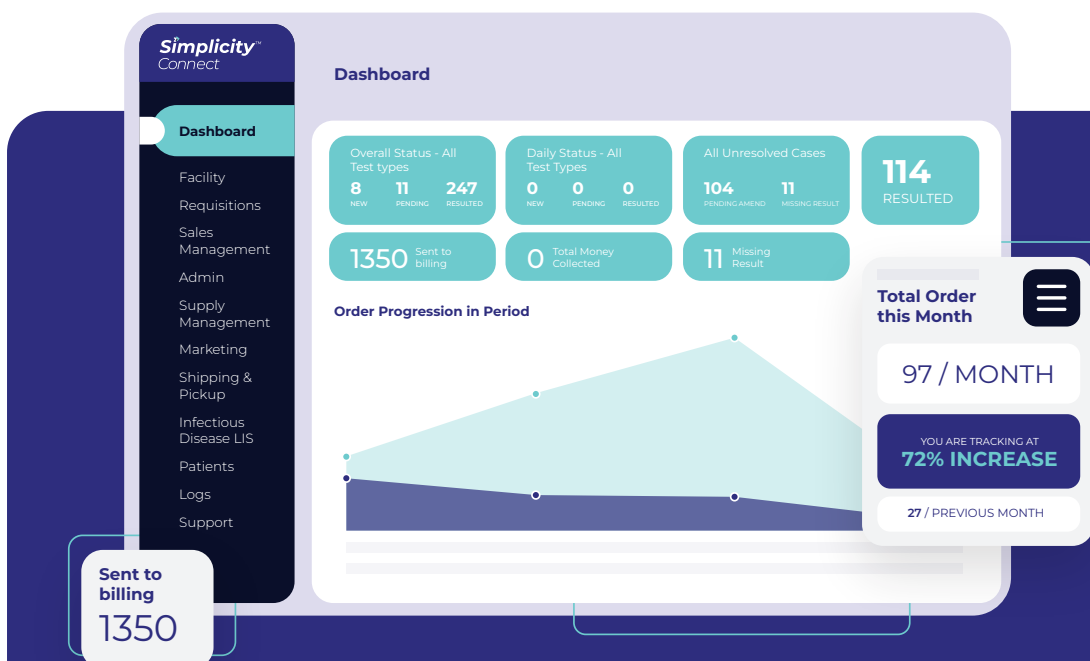

- Predictable monthly pricing
- No hidden integration costs
- Scale with your needs

Financial Optimization

Our all-inclusive SaaS model eliminates unexpected costs while maximizing research efficiency.

Maximize ROI

Drive value through reduced manual processes and optimized resource allocation, delivering measurable improvements in research productivity.

Schedule a demo today to discover how Simplicity Connect™ can enhance your lab operations.
